

Two Summers — Campaign 2 Brief

@Yujia · NYU Social Media & Brand · June 2026

1. Campaign Overview

Campaign Name: Two Summers

Summary: A 3-week summer lifestyle campaign that deepens Yujia's cross-cultural identity narrative, leveraging Douyin's proven virality while closing the engagement gap on Instagram and Xiaohongshu.

Primary Objective

Reach 5,000 total valid KPIs (likes, comments, shares, saves, new followers — video views excluded) within 21 days, 100% organic.

Secondary Objectives

- Grow Instagram's share from 9% → 15%+ of total KPIs by leading with Reels
- Grow Xiaohongshu's share from 5% → 10%+ through keyword-optimized lifestyle posts
- Gain 500+ new followers across all platforms (vs. 291 in Campaign 1)

2. Target Audience

Primary — Chinese diaspora / international students (Douyin + XHS)

Age 18–28. Women living between two cultures who follow aesthetic lifestyle content and resonate with slow-life (慢生活) themes. They engage with content that makes them feel "seen." Discover creators through algorithm-pushed emotional content on Douyin and trending keywords on XHS.

Secondary — Western Gen Z lifestyle audience (Instagram)

Age 18–28. Gen Z women interested in East Asian fashion aesthetics, travel, and cross-cultural style. Discover creators via Reels; engage with GRWM, OOTD, and "day in my life" formats.

Buying Stage: Awareness → early consideration. Goal is audience growth, not conversion.

3. Key Messages

Core Message: "Summer looks different depending on which world you're living in — this is mine."

Platform	Message Angle	Tone
Douyin	The emotional in-between — moments of beauty in cultural transition	Vulnerable, cinematic, intimate
Instagram	Effortless summer aesthetic — fashion and lifestyle that travels across cultures	Polished, aspirational, minimal
Xiaohongshu	Summer ritual guides — how to live beautifully with a bicultural eye	Informative, warm, community-feel

4. Channel Strategy

Douyin — Priority 1 (Maintain & Scale) · Effort: Medium-High

Campaign 1 drove 86% of all KPIs from a single emotionally resonant video that triggered Douyin's 流量激励 (traffic incentive) system. Strategy: publish a **4-part mini-series** with a consistent hook to sustain algorithmic momentum. Open each video within 2 seconds on the "two worlds" tension.

Instagram — Priority 2 (Major Push) · Effort: Medium

Campaign 1 IG underperformed, likely due to static posts. Shift entirely to **Reels (15–30 sec)**, which receive dramatically more reach than feed posts. Use Stories every day for low-effort engagement touchpoints — polls and "this or that" summer aesthetic questions. Minimum 3× Reels/week.

Xiaohongshu — Priority 3 (Keyword-Led Growth) · Effort: Low-Medium

XHS is a **search-first platform**. Campaign 1 likely missed keyword opportunities. Research top 5 trending summer lifestyle terms (夏日穿搭、留学生日常、双文化生活) and embed them in every post title and caption. Lead with multi-image aesthetic carousels, which outperform single images on XHS.

6. Content Assets Needed

Asset	Type	Priority	Deadline
Campaign launch Reel	Video (15–30 sec)	Must-Have	Day 1
Douyin mini-series (4 parts)	Video (30–60 sec each)	Must-Have	Days 1, 4, 8, 16
IG Reels (5 total)	Video — fashion, OOTD, vlog	Must-Have	Throughout
XHS carousel posts (4 total)	Multi-image (4–8 images each)	Must-Have	Days 2, 7, 10, 17
IG Stories content	Story slides — polls, BTS, Q&A;	Must-Have	Daily throughout
Cross-platform recap post	Image + copy (campaign close)	Nice-to-Have	Day 21

7. Success Metrics

Primary KPI: 5,000 total valid interactions by Day 21. Screenshot metrics every 3–4 days to document the growth curve for your course presentation.

Metric	Target	How to Track
Total Valid KPIs	5,000	Screenshot all platforms Day 0 · 7 · 14 · 21
Douyin KPIs	4,000+ (80% of total)	Maintain Campaign 1 platform dominance
Instagram KPIs	750+ (15% of total)	3× improvement from Campaign 1's ~200
Xiaohongshu KPIs	500+ (10% of total)	2× improvement from Campaign 1's ~110
New followers (all platforms)	500+	Screenshot follower counts Day 0 and Day 21
Douyin hero post plays	15,000+ per video	Campaign 1 hit 24,000 — set as floor expectation

8. Risks & Mitigations

Risk 1 — Douyin algorithm doesn't pick up the series as strongly as the hero post
Post the first video when followers are most active. Use a strong hook in the first 2 seconds. Reply to every comment within the first 2 hours to signal engagement quality to the algorithm.

Risk 2 — 21 days is tight for 14+ pieces of content
Batch-shoot content in 2–3 sessions rather than daily. The Douyin mini-series can be filmed in one shoot day and posted across 2 weeks. XHS carousels can be assembled from existing photos.

Risk 3 — XHS keyword strategy doesn't gain traction without prior audience

Research trending hashtags 2 days before launch. Follow 3–5 accounts in the same niche to signal your content category to the algorithm before posting.

9. Next Steps

- **Record baseline metrics now** — screenshot follower counts and recent engagement on all three platforms before Day 1
 - **Plan 2 shoot days this week** — one for the Douyin mini-series b-roll, one for IG fashion and lifestyle content
 - **Research XHS keywords** — spend 30 minutes searching summer lifestyle terms on Xiaohongshu and note what's trending
 - **Finalize campaign name** — "Two Summers" is a suggestion; adjust to what feels most authentic to Yujia's voice
 - **Set Day 1 launch date** — mark Day 7, 14, and 21 as metric checkpoints
-
